Exclusions of subtests of a test are not listed in this scope of accreditation, and the laboratory must inform the purchaser during contract review.

Only normative references to European standards (DIN EN) were respected during the accreditation assessment. International normative references (IEC ISO) were only respected, if the referenced international editions of the standards are listed explicitly in this annex to the notice of accreditation.

**2) EMC**

Test area	Test item Product (category)	Kind of test	Test standard Test method
