## Annex to the Accreditation Certificate D-PL-11267-01-01 according to DIN EN ISO/IEC 17025:2018

**Valid from: 25.02.2020**

Date of issue: 25.02.2020

Holder of certificate:

**Materialprüfanstalt für das Bauwesen (MPA BS)  
Beethovenstraße 52, 38106 Braunschweig**

### **Department 1 – Structures & Construction Materials**

Tests in the fields:

**mechanical, physical, hygric, thermic and chemico-physical tests on mineral construction materials such as aggregates, cements, concrete, steel fibre concrete, concrete products, bricks, mortars, plasters, screed, on load bearing walls and non load bearing light partitions, ceiling sheathings, pipe anchors, fixtures and manholes for road surfaces, construction steel and concrete steel, stain-less steel, prestressed steel, concrete steel connections, fibres for concrete, prestressed components, on concrete elements and structures with respect to durability, on concrete steel components and structures in relation to construction structures inspections, on restoration materials, construction structures sealing, on organic and inorganic construction products, on heat insulators and fibre cement products**

**Testing of construction products in accordance with the Construction Products Regulation (EU) No 305/2011 to defined harmonised conditions for the marketing of construction products (Construction Products Regulation - CPR)**

**The testing laboratory is permitted, without being required to inform and obtain prior approval from DAkkS, to use standards or equivalent testing methods listed here with different issue dates. The testing laboratory maintains a current list of all testing methods within the flexible scope of accreditation.**

This document is a translation. The definitive version is the original German annex to the accreditation certificate.
