

Deutsche Akkreditierungsstelle GmbH

Annex to the Accreditation Certificate D-PL-17819-01-00 according to DIN EN ISO/IEC 17025:2018

Valid from: 30.04.2019

Date of issue: 30.04.2019

Holder of certificate:

**MPA Dresden GmbH
Fuchsmühlenweg 6F, 09599 Freiberg**

Tests in the fields:

Testing of portable fire extinguishers, mobile fire extinguishers without own power operation and fire extinguishers fixed in vehicles, fire extinguishers for controlling pulverised lignite and smouldering fire; testing of fire extinguishing sprays;

Testing of fire extinguishing agents; fire tests of building materials, building components and construction products, roofing, cables and insulated lines, safety storage cabinets, upholstered furniture and upholstery composites, textiles, bedding as well as testing of fire behaviour under actual fire conditions, fire tests in the area of maritime transport and railway vehicles

**Testing of construction products (System 3 for the evaluation and testing of the constancy of performance) within the scope of the Directive (EU) no. 305/2011 for the definition of harmonised conditions for the marketing of construction products
(Construction Product Regulation)**

Testing of reaction to fire, fire resistance and external fire performance of construction products for which the reference to a relevant harmonised technical specification is not required (point 3, Annex V, (EU) no. 305/2011)

The testing laboratory is permitted, without being required to inform and obtain prior approval from DAkKS, to use standard test methods listed here with different issue dates or revision status updates. A current list of all testing methods in the flexible accreditation scope is maintained by the testing laboratory.

This document is a translation. The definitive version is the original German annex to the accreditation certificate.

Abbreviations used: see last page

*The certificate together with its annex reflects the status at the time of the date of issue. The current status of the scope of accreditation can be found in the database of accredited bodies of Deutsche Akkreditierungsstelle GmbH.

Annex to the accreditation certificate D-PL-17819-01-00

1 Fire extinguishers

1.1 Portable fire extinguishers

DIN EN 3-7 2007-10	Portable fire extinguishers - Part 7: Characteristics, performance requirements and test methods
DIN EN 3-8 2007-02 Corrigendum 1 2008-01	Portable fire extinguishers - Part 8: Additional requirements to EN 3-7 for the construction, resistance to pressure and mechanical tests for extinguishers with a maximum allowable pressure equal to or lower than 30 bar without section 6.3.6 macroscopic examination of the tank Annex D.2.4 Ageing test – Xenon-arc, artificial ageing according EN ISO 4892-2, method A Annex D.2.5 Impact test after ageing at 20°C
DIN EN 3-9 2007-02 Corrigendum 1 2008-01	Portable fire extinguishers - Part 9: Additional requirements to EN 3-7 for pressure resistance of CO ₂ - extinguishers

1.2 Mobile fire extinguishers without own power operation

DIN EN 1866-1 2007-10 Corrigendum 1 2008-01	Mobile fire extinguishers - Part 1: Characteristics, performance and test methods
DIN EN 1866-2 2014-07	Mobile fire extinguishers - Part 2: Requirements for the construction, pressure resistance and mechanical tests for extinguishers, with a maximum allowable pressure equal to or lower than 30 bar, which comply with the requirements of EN 1866-1
DIN EN 1866-3 2013-08	Mobile fire extinguishers - Part 3: Requirements for the assembly, construction and pressure resistance of CO ₂ extinguishers which comply with the requirements of EN 1866-1

4 Testing of construction products (System 3 for the evaluation and testing of the constancy of performance) within the scope of the Directive (EU) no. 305/2011 for the definition of harmonised conditions for the marketing of construction products (Construction Product Regulation)

Decision / Resolution of the Commission	System ¹⁾	Technical specification
2011/284/EC Power, control and communication cables	3	EN 50575:2014 + A1:2016 Power, control and communication cables - Cables for general applications in construction works subject to reaction to fire requirements

¹⁾ Systems of assessment and verification of constancy of performance

The requirements for a testing laboratory are fulfilled according to article 43 of the Construction Products Regulation. Testing methods, which are necessary for determining the product type and cannot be executed by the holder of the certificate, are described in the list of subcontractors.

Without prior approval by the DAkkS German Accreditation Body, the testing laboratory body is permitted to use new revisions of harmonised technical standards.

EN 13823 2010+A1 2014	Reaction to fire tests for building products - Building products excluding floorings exposed to the thermal attack by a single burning item
EN ISO 1182 2010	Reaction to fire tests for products - Non-combustibility test
EN ISO 11925-2 2010	Reaction to fire tests - Ignitability of products subjected to direct impingement of flame - Part 2: Single-flame source test
EN ISO 1716 2018	Reaction to fire tests for products - Determination of the gross heat of combustion (calorific value)
EN ISO 9239-1 2010	Reaction to fire tests for floorings - Part 1: Determination of the burning behaviour using a radiant heat source

chapter 5.1 with reference to:

<i>EN 13501-1 2007+A1:2009</i>	<i>Fire classification of construction products and building elements - Part 1: Classification using data from reaction to fire tests</i>
<i>EN 13501-6 2014</i>	<i>Fire classification of construction products and building elements - Part 6: Classification using data from reaction to fire tests on electric cables</i>

5.2 Resistance to fire

EN 1364-1 2015	Fire resistance tests for non-loadbearing elements - Part 1: Walls
EN 1364-2 2018	Fire resistance tests for non-loadbearing elements - Part 2: Ceilings
EN 1364-3 2014	Fire resistance tests for non-loadbearing elements - Part 3: Curtain walling - Full configuration (complete assembly)

Date of issue: 30.04.2019

Annex to the accreditation certificate D-PL-17819-01-00

EN 1364-4 2014	Fire resistance tests for non-loadbearing elements - Part 4: Curtain walling - Part configuration
EN 1365-2 2014	Fire resistance tests on load-bearing building components - Part 2: Ceilings and roofs
EN 1366-1 2014	Fire resistance tests on service installations - Part 1: Ventilation ducts;
EN 1366-3 2009	Fire resistance tests on service installations - Part 3: Penetration seals
EN 1366-4 2006+A1:2010	Fire resistance tests on service installations - Part 4: Linear joint seals
EN 1366-5 2010	Fire resistance tests on service installations - Part 5: Service ducts and shafts
EN 1366-6 2004	Fire resistance tests on service installations - Part 6: Raised access and hollow core floors
EN 1366-7 2004	Fire resistance tests on service installations - Part 7: Conveyor systems and their shutters
EN 14135 2004	Coverings - Determination of fire protection ability
EN 1634-1 2014 + A1:2018	Fire resistance and smoke control tests for door and shutter assemblies, openable windows and elements of building hardware - Part 1: Fire resistance test for door and shutter assemblies and openable windows

chapter 5.2 with reference to:

<i>EN 13501-2 2016</i>	<i>Fire classification of construction products and building elements - Part 1: Classification using data from reaction to fire tests</i>
<i>EN 13501-3 2005 + A1: 2009</i>	<i>Fire classification of construction products and building elements - Part 3: Classification using data from fire resistance tests on products and elements used in building service installations: fire resisting ducts and fire dampers</i>

5.3 External fire performance

CEN/TS 1187 Test method for exposure of roofing to external fires - Method 1:
2012

chapter 5.3 with reference to:

*EN 13501-5 Fire classification of construction products and building
2016 elements - Part 5: Classification using data from external
fire exposure to roofs tests*

The testing laboratory meets the appropriate requirements in accordance with Article 43 of the Construction Products Regulation.

Abbreviations used:

BS	British Standard
CEN/TS	Technical specification of the Comité Européen de Normalisation (European Committee for Standardisation)
DIN	Deutsches Institut für Normung e.V. (German Institute for Standardisation)
EN	Europäische Norm (European Standard)
EKS	Experience exchange forum No. 5, according to decision of principle ZEK-GB-2004-04 (ZEK 40.2-04)
FTP	Fire Test Procedures
ICAO	International Civil Aviation Organisation
IEC	International Electrotechnical Commission
IMO	International Maritime Organisation
ISO	International Organisation for Standardisation
LG or LM	In-house procedures of MPA Dresden GmbH for fire extinguishers and fire extinguishing agents
MST	Module Safety Test
MSC	Marine Safety Committee
MVV TB	Musterverwaltungsvorschrift Technische Baubestimmungen (Specimen Administrative Provision Technical Building Regulations)
NF	Norme Française (French Standard)
UIC	Union internationale des chemins de fer (International Union of Railways)
UL	Underwriters Laboratories
VDE	VDE Verband der Elektrotechnik Elektronik Informationstechnik e.V. (Association for Electrical, Electronic and Information Technologies)
ZEK	Central experience exchange group of notified bodies and GS-bodies according to the product safety law (Produktsicherheitsgesetz)
