General remarks:

An application form shall be submitted in the following cases:

1. Initial accreditation
2. Re-accreditation
3. Change of granted accreditation (for „formal“ changes which require an adjustment of the accreditation certificate, e.g. change of address, change of name, change of holder, change of ownership)
4. Extension of accreditation (extension of the scope of accreditation – new fields to be accredited or new location to be integrated)
5. Reduction of the accreditation scope (e.g. reduction or temporary suspension of the accreditation)

Surveillance assessments for the accreditation are performed without any application.

Where the scope of an accreditation is reduced due to findings in a surveillance process, as a rule, the CAB does not need to make an application.
